Document available at: <http://www.centerformedicalprogress.org/wp-content/uploads/2016/06/PPMMSEcontract.pdf>

STEM-EX, LLC

Services Agreement

This agreement is made as of April 1st, 2010 between Stem-Ex, LLC, a limited liability company, and Planned Parenthood Mar Monte, a professional corporation.

WHEREAS, Stem-Ex is a company devoted to providing services related to the procurement of human organs, tissues, and blood for medical research in order to facilitate medical research utilizing those tissues; and

WHEREAS, Planned Parenthood Mar Monte provides medical services, education programs, and advocacy initiatives in order to improve people's lives;

NOW, THEREFORE, in consideration of the premises and mutual covenants contained in this Agreement, and in order to further their mutual goals, the parties agree as follows:

1. The term "fetal organ" has the same meaning as the term defined in the National Organ Transplant Act (42 U.S.C.A. 274e(c)(1)) and means the human kidney, liver, heart, lung, pancreas, bone marrow, cornea, eye, bone, and skin or any subpart thereof and any other human organ or any subpart thereof, as from a fetus.
2. The term "product of conception" ("POC") means any fetal organ or other fetal or placental material taken from the human uterus during an abortion.
3. The term "maternal bloods" means blood samples taken from a pregnant woman.
4. Planned Parenthood Mar Monte will provide, and Stem-Ex will pay the reasonable costs for, services and facilities at mutually agreed upon health centers (hereinafter collectively referred to as "services") associated with the following: the removal of fetal organs from POCs; the processing, preservation, quality control, and transportation of the fetal organs; appropriate space in which Stem-Ex representatives and employees may work; disposal services for non-used portions of cadaveric materials; obtaining maternal bloods; seeking consent for donation of fetal organs and maternal bloods from appropriate donors, and; maintaining records of such consents so that verification of consent can be supported.
5. The reasonable costs associated with the services specified in this Agreement shall be fifty-five dollars (\$55.00) per POC determined in the clinic to be usable, and ten dollars (\$10.00) per maternal blood. Planned Parenthood Mar Monte will invoice Stem-Ex monthly for the number of POC's and number of maternal bloods procured by Stem-Ex. Stem-Ex will pay Planned Parenthood Mar Monte within two weeks of receipt of the invoice.

6. Any information obtained from Planned Parenthood Mar Monte patients' charts shall be privileged, and Stem-Ex will treat the information in order to preserve the confidentiality of the patients. Stem-Ex will not receive any information concerning identity of donors except as necessary to obtain patients' consent for use of POCs and maternal bloods.
7. The term of this Agreement shall be for one year, beginning from the date hereof, and terminating one year thereafter. Parties may, at any time, give each other thirty days written notice of the intention to terminate this Agreement, whereupon the Agreement shall terminate thirty days after the receipt of such notice. In the absence of such termination, this Agreement shall continue for further successive terms of one year thereafter.
8. Written notices pursuant to this Agreement shall be sent to the following:

Attn: Medical Director
Planned Parenthood Mar Monte
1691 The Alameda
San Jose, CA 95126

Stem-Ex
484 Main Street, Ste. 1
Diamond Springs, CA 95619
9. The parties do not know how many patients will consent to donate POCs or maternal bloods for research, and thus do not know how many POCs or maternal bloods will be obtained pursuant to this Agreement. Planned Parenthood Mar Monte is not obligated to provide any minimum number of POCs or maternal bloods. Stem-Ex is not obligated to take any minimum number of POCs or maternal bloods, nor is Stem-Ex obligated to take all the POCs or maternal bloods made available by Planned Parenthood Mar Monte.
10. The parties mutually agree to defend, protect, and hold harmless each other's officers, directors, agents, employees, and consultants from and against any and all expenses, liabilities, demands or claims for loss or damage to property, or for personal injury or death suffered as a result of any actions by the parties in the performance of the Agreement and attributable to the fault or negligence of the parties or their respective officers, directors, agents, employees, or consultants.
11. No modification to this Agreement, nor any waiver of any rights, shall be effective unless agreed to in writing by the party charged with such waiver or modification. Waiver of any breach or default shall not constitute a waiver of any other right hereunder, or any subsequent breach or default.
12. This Agreement constitutes the entire and exclusive agreement between the parties.

13. This Agreement shall be governed by and interpreted under the laws of the State of California, and venue for any dispute arising hereunder shall be in the County of Sacramento.
14. The prevailing party in any action to enforce the terms of the Agreement shall be entitled to reimbursement by the other party for all costs, including the reasonable attorney fees and professional fees, incurred in connection with such proceeding.
15. This Agreement may be executed in counterparts, each of which will be deemed an original, but both of which together will constitute one and the same instrument.

IN WITNESS WHEREOF, the parties have executed this agreement by their duly authorized representatives as of the date written above.

Your clinic can advance biomedical research.

Financially Profitable • Easy to Implement Plug-in Solution • Medical Director Oversight • IRB Certified Consents

About StemExpress

StemExpress is a California-based biomedical company that provides qualified research laboratories with human cells, fluids, blood and tissue products for the pursuit of disease detection and cure. We procure, preserve, isolate and deliver cell lines exclusively to research facilities across the world. StemExpress products are not available for patient care. Stem Express is accredited by an independent biomedical Institutional Review Board.

"Our partnership with StemExpress is beneficial in a number of ways. First, it allows us to contribute to life-saving research that is advancing diagnostic and medical care. Second, StemExpress has a Plug-in Solution that allows us to add additional clinics quickly. Lastly, I feel confident that our patient's anonymity is secure through their strict protocols and practices."

– Dr. Dorothy Furgerson, Planned Parenthood Mar Monte

Advancing BioMedical Research Together

Join the StemExpress partner program that fiscally rewards clinics for contributing to the advancement of life-saving research — with a solution that is easy to incorporate into your clinic practices. StemExpress is a California-based biomedical company that provides human tissue products ranging from fetal to adult tissues and healthy to diseased samples to many of the leading research institutions in the world. Our IRB approved protocols and consents protect you as well as donor's privacy in accordance with HIPAA guidelines.

Partnering with Obstetrical-Care Clinics

Cell-free fetal DNA circulates in maternal blood throughout pregnancy. Noninvasive, stem cell free methods to obtain fetal DNA are being used for earlier detection of genetic diseases as well as reproductive decision-making. Research pioneers who develop noninvasive diagnostic technologies rely on the blood samples that are collected from hospitals and clinics throughout the United States.

Easy to Implement Program + Financial Profits

StemExpress promotes global biomedical research while also providing a financial benefit to your clinic. By partnering with StemExpress, not only are you offering a way for your clients to participate in the unique opportunity to facilitate life-saving research, but you will also be contributing to the fiscal growth of your own clinic. The stem cell rich blood and raw materials that are usually discarded during obstetrical procedures can, instead, be expedited through StemExpress to research laboratories with complete professionalism and source anonymity.

SUSTAINING QUALITY OF LIFE
